- o. The Commission’s scoping process will help determine the required level of analysis and satisfy the National Environmental Policy Act (NEPA) scoping requirements, irrespective of whether the Commission prepares an environmental assessment or environmental impact statement.

Scoping Process

Due to ongoing concerns with large gatherings related to COVID-19, we do not intend to hold in-person public scoping meetings or an in-person environmental site review. Rather, Commission staff will hold two public scoping meetings using a telephone conference line. The daytime scoping meeting will focus on resource agency, Indian tribes, and non-governmental organization (NGO) concerns, while the evening scoping meeting will focus on receiving input from the public. We invite all interested agencies, Native American tribes, NGOs, and individuals to attend one of these meetings to assist us in identifying the scope of environmental issues that should be analyzed in the NEPA document. The dates and times of the meetings are listed below.

<p>Meeting for resource agencies, Tribes, and NGOs:</p> <p>Wednesday, June 29, 2022 10:00 a.m. - 12:00 p.m. PST</p> <p>Call in number: (800) 779-8625 Access code: 3472916</p> <p>Following entry of the access code, please provide the required details when prompted</p>
<p>Meeting for the general public:</p> <p>Thursday June 30, 2022 6:00 p.m. - 8:00 p.m. PST</p> <p>Call in number: (800) 779-8625 Access code: 3472916</p> <p>Following entry of the access code, please provide the required details when prompted</p>

SD1, which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission’s mailing list and GreenGen’s distribution list. Copies of SD1 may be viewed on the web at <http://www.ferc.gov>, using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. Based on all oral and written comments, a Scoping Document 2 (SD2) may be

issued. SD2 will include a revised process plan and schedule, as well as a list of issues, based on the scoping process.

Meeting Objectives

At the scoping meetings, Commission staff will: (1) initiate scoping of the issues; (2) review and discuss existing conditions; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the potential of any federal or state agency or Indian tribe to act as a cooperating agency for development of an environmental document. Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n of this document.

Meeting Procedures

Commission staff will be moderating the scoping meetings. The meetings will begin promptly at their respective start times listed above.

At the start of the meeting, staff will provide further instructions regarding the meeting setup, agenda, and time period for comments and questions. We ask for your patience as staff present information and field participant comments in an orderly manner. To indicate you have a question or comment, press * and 3 to virtually "raise your hand". Oral comments will be limited to 5 minutes in duration for each participant. The meetings will be recorded by a stenographer and will be filed to the public record of the project.

Please note, that if no participants join the meetings within 15 minutes after the start time, staff will end the meeting and conference call. The meetings will end after participants have presented their oral comments or at the specified end time, whichever occurs first.

Dated: June 7, 2022.

Secretary.
